

The Foundatia Advantage: Building a Foundation of IT Strength – EVERYDAY

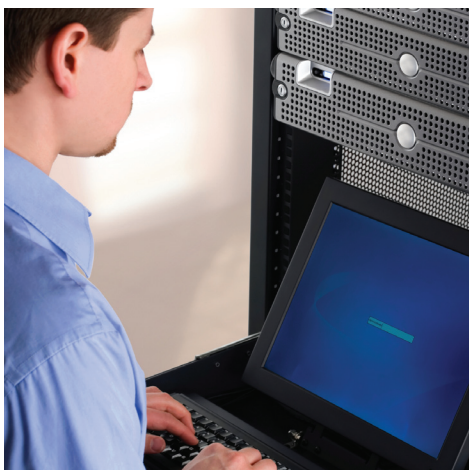

Today's businesses depend on IT infrastructure to be available 24x7x365, but at the same time, they are facing an explosion of systems and data at an accelerating pace. Regardless of the timeframe required, Foundatia Technologies provides the solutions that ensure your core IT assets and mission-critical data are available on demand – everyday.

A leading managed IT solutions provider, Foundatia Technologies offers proven solutions for server monitoring, network security, backup and storage, virtualization, disaster recovery, hosting services and maintenance programs to improve customers' availability and enhance end-user experience while reducing costs and minimizing downtime – everything you need for your own peace of mind and sustainability.

Our goal is to reduce the expense of everyday infrastructure requirements using a simple, but proven strategy, all while improving the reliability and availability of your critical systems. We understand the unique IT challenges your organization faces and our seasoned experts provide solutions tailored to your specific needs, focusing on improving your company's efficiencies and enhancing your overall IT infrastructure.

Let Foundatia Technologies focus on the mundane but critical daily tasks essential to keeping your systems running while your own resources focus on your business.

Where the Foundation Begins

Having the right technology solutions for your operation is essential for your business survival. And today, more and more companies are depending on technology to help differentiate themselves in the marketplace. The right technologies enable better service and increased efficiency, which has a tremendous impact on your bottom line. Recognizing the importance of technology in today's business world, Foundatia Technologies is at the forefront with customized solutions aimed at reducing costs and minimizing risks for your company.

Foundatia Technologies offers managed services to support the core technologies of your industry which are essential to running your business. We better leverage your internal IT resources by doing the heavy lifting and the everyday work that your core technologies demand. This gives your IT resources the opportunity to focus on your organization's unique application technology needs, better leveraging their efforts to directly complements your business.

Foundatia Technologies Managed Services provide special expertise for all your major infrastructure needs:

- ✓ E-mail
- ✓ Database
- ✓ Operating system
- ✓ Network
- ✓ Managed storage
- ✓ Disaster recovery
